

SUMMARY

Results-driven Software Engineer with **7+ years** of experience architecting backend systems across **SaaS, F&B retail, and on-demand logistics**. Currently Person-In-Charge at Mekari, leading cross-functional initiatives from RFC authoring to production delivery. Proven track record delivering subscription platforms, real-time data sync pipelines, and marketplace systems at enterprise scale. **AI integration specialist** — embedding autonomous agents into engineering workflows to accelerate team velocity.

EXPERIENCE

Mekari

Jakarta
Jan 2021 – Present

Software Engineer — Subscription, Data Sync & Marketplace

★ 2022 Customer First Awardee

- Architect and maintain the **Subscription Platform** powering Mekari's product suite, serving Finance as direct stakeholders.
- Own the **Data Sync Platform** feeding CRM, customer engagement, and support systems with real-time event streams.
- Maintain the **Partners & Marketplace** platform enabling third-party integrations and service discovery.
- Act as **Person-In-Charge** for cross-functional initiatives — RFC authoring, stakeholder alignment, task decomposition, multi-team delivery.
- Lead **AI integration** — authoring custom skills for Claude Code & OpenCode adopted by the engineering team in production.

Ruby on Rails Vue.js MySQL MongoDB Kafka Redis GraphQL Claude Code OpenCode

Fore Coffee

Jakarta
Jan 2020 – Jan 2021

Backend Engineer — Mobile App & Point-of-Sale

- Built and maintained the **core backend** for Fore Coffee's mobile application and in-store POS infrastructure.
- Integrated **5+ payment gateways** — Jenius, OVO, Midtrans (GoPay), ShopeePay, Xendit.

Node.js Express MySQL Redis Elasticsearch

Triplogic

Jakarta
Feb 2019 – Dec 2019

Backend Engineer — On-Demand Logistics

- Led and mentored **3 Junior Engineers** — technical direction, code reviews, engineering best practices.
- Designed and shipped the core **on-demand logistics platform** backend.
- Delivered dedicated backends for: coffee logistics (**Fore Coffee**), luggage delivery (**Traveloka**), event locker (**YouTube Indonesia**).

Node.js Python Django Flask Microservices

AI INTEGRATOR

• Claude Code

Authored production-grade custom skills — multi-agent task orchestration, test-case management, and video clipping pipelines. Adopted by the engineering team in daily workflows.

• OpenCode

Integrated OpenCode CLI for autonomous delegated coding — PR review, feature development, and codebase refactoring via agent delegation with custom toolchains.

• Hermes Agent

Configured and deployed Hermes as an autonomous engineering agent — multi-skill orchestration, cron automation, Telegram-native workflows, and cross-platform macOS integration.

TECHNICAL SKILLS

LANGUAGES

Ruby, JavaScript, TypeScript, Python, SQL

DATABASES

MySQL, MongoDB, Redis, Elasticsearch

BACKEND

Rails, Express.js, Node.js, Django, Flask

MESSAGING & APIS

Apache Kafka, GraphQL, REST

FRONTEND

Vue.js, HTML5, CSS3

ARCHITECTURE

Microservices, Event-Driven, Platform Eng, RFC Authoring, Mentoring
